TECHNICAL DATA SHEET

Industrial absorbent roll

The INDUSTRIAL ABSORBENT retains liquids safely, without absorbing your profit.

Available in rolls of approximately 30 linear meters, the INDUSTRIAL ABSORBENT retains petroleum- and water-based fluids, as well as chemicals resistant to temperature and moisture. Its long service life provides clean, dry and much safer environments.

It replaces sawdust and/or cardboard around machinery, providing safety for workers by preventing falls caused by excessive oils and solvents on the factory floor and reducing incidents of soil contamination.

Technical specifications

Length / width / area	Roll of approximately 30 m x 1 m wide = 30 m²
Thickness	5 to 7 mm
Basis weight	900 g2
Weight	Approximately 27 kg per roll
Absorption capacity	Up to 3,5 liters of liquid per 1 m²

Dimensions, units and numerical notation are retained as stated in the source sheet.

Safety applications

- Safety on platforms and slippery floors.
- Safety at work.
- Safety in maintenance areas.
- Safety when using heavy machinery.
